2000	-	-16.21%	-15.56%	-22.43%	-8.25%

Data quoted is past performance and current performance may be lower or higher. Past performance is no guarantee of future results. Investment return and principal value of an investment will fluctuate, and shares, when redeemed, may be worth more or less than their original cost. Please visit [www.ivyfund.com](http://www.ivyfund.com) for the most recent month-end performance.

- Performance at net asset value (NAV) does not include the effect of sales charges. Class A share performance, including sales charges, reflects the maximum applicable front-end sales load of 5.75%. For Class C shares, a 1% CDSC applies to the lesser of amount invested or redemption value of shares redeemed within twelve months after the purchase date. Class Y shares are not subject to sales charges.
- For Class C shares, performance prior to 3/24/00 is based on the fund's original Class B shares, which were combined with Class C Shares, effective 3/24/00, and redesignated as Class C shares. New Class B shares with fees and expenses different than the original Class B shares were added to Ivy Funds on 6/30/00.
- Effective 6/30/00, the fund's name and strategy changed to reflect a concentration in small-cap securities.
- Russell 2000 Growth is an unmanaged index comprised of securities that represent the small cap sector of the stock market. It is not possible to invest directly in an index.

## GROWTH OF A \$10,000 INVESTMENT Class C shares- 06/30/2000 - 6/30/2010

Assumes an investment over 10 years or life of the share class, reinvestment of dividends and capital gains, and does not include the effect of sales charges or taxes.

★★★★

### Overall Morningstar Rating\*

Class C Shares among 666 Small Growth funds. Based on risk-adjusted returns. The fund received 5 stars for the 3-year period among 666 funds, 4 stars for the 5-year period among 549 funds and 3 stars for the 10-year period among 315 funds.\*

## LIPPER RANKINGS

Category: Lipper Small-Cap Growth Funds

	Rank	Percentile
1 Year	37/534	7
3 Year	38/469	9
5 Year	99/394	26
10 Year	70/218	32

Rankings are for Class C shares and are based on average annual total returns, but do not consider sales charges.

Sharpe Ratio	-0.04

**Consider all factors.** Investing in small-cap stocks may carry more risk than investing in stocks of larger, more well-established companies. As with any mutual fund, the value of the Fund's shares will change, and you could lose money on your investment. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. These and other risks are more fully described in the fund's prospectus. Not all funds or fund classes may be offered at all broker/dealers.

<sup>5</sup> The style box reveals a fund's investment strategy by displaying the fund's investment style and the market capitalization of the stocks owned.

<sup>6</sup> Effective April 1, 2010, Timothy J. Miller is primarily responsible for the day-to-day management of the Ivy Small Cap Growth Fund.

<sup>7</sup> Information is subject to change and is not intended to represent any past or future investment recommendations.

<sup>8</sup> Alpha, Beta, R-Squared, Standard Deviation and Sharpe Ratio are 5 year statistics that represent the fund's oldest share class. Alpha is a measure of a fund's actual returns and expected performance, given its level of risk (as measured by beta). Beta reflects the sensitivity of the fund's return to fluctuations in the market index. R-squared indicated how much of a fund's fluctuations were attributable to movements in the fund's benchmark. Standard deviation is a measure of how volatile a fund's returns are. Sharpe ratio is a measure of a fund's risk-adjusted performance.

<sup>\*</sup> For each fund with at least a 3-year history, Morningstar calculates a risk-adjusted return measure that accounts for variation in a fund's monthly performance (including the effects of all sales charges), placing emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund and rated separately.) A fund's overall rating is derived from a weighted average of the 3-, 5- and 10-year (if applicable) rating metrics. Morningstar Rating is for the share classes specified; other classes may have different performance characteristics.

**Investors should consider the investment objectives, risks, charges and expenses of a fund carefully before investing. For a prospectus containing this and other information for the Ivy Funds, call your financial advisor or visit us online at [www.ivyfund.com](http://www.ivyfund.com). Please read the prospectus carefully before investing.**
